GAA-SC Fall Event
Program Agenda
Wednesday, November 10th, 2021

9:30 – 9:45 AM   **Opening Remarks**
                           Kathleen Brenkert, GAA-SC President, GIS Director for the City of North Charleston

9:45 – 10:45 AM   **NG911 Panel**
                           Alan Rickenbaker, GIS Manager, Lexington County
                           Terri Waddell, Geoservices Senior Analyst, Aiken County
                           Panel discussion on the successes, challenges, and pain points that have arisen throughout
                           the process of the NG911 implementation across local jurisdictions within South Carolina.

10:45 – 11:00 AM   **Break**

11:00 – 12:00 PM   **GAA Membership Round Table**
                           Daniel Morgan, Director of Mapping and Applications, Beaufort County
                           Member round table giving each GAASC organization members the opportunity to
                           introduce themselves and discuss topics of interest.

12:00 – 1:00 PM   **Lunch**

1:00 – 2:00 PM   **IT Security Panel**
                           Frank Bishop, IT Director, Aiken County
                           Jamie Beckham, IT Director, City of Cayce
                           Panel discussion on security issues faced by local jurisdictions across the state. Topics
                           covered: multifactor authentication, spear-phishing campaigns, achieving security awareness
                           buy-in from factors within your organization, etc.

2:00 – 2:15 PM   **Break**

2:15 – 3:15 PM   **The Slim GIM Model Assessment Project**
                           Bob Hawks, GIS Analyst/Technician, City of Cayce
                           Update of the ongoing Slim GIM Capability Maturity Model assessment project. This model
                           is a type of self-assessment giving insight into the strengths and weaknesses of a jurisdiction,
                           as well as where it has the greatest chances of improvement. The model is currently being
                           assessed across a broad range of jurisdictions in South Carolina. Once completed, the
                           results of the project will be provided as guidelines and best practices for the state and
                           beyond.

3:15 – 3:30 PM   **Closing Remarks**
