# Geospatial Administrators Association South Carolina

## Spring Summit 2024

Feb 29th & Mar 1<sup>st</sup>, 2024

The Geospatial Administrator's Association of SC (GAASC) is proud to invite you to our annual GAASC 2024 Spring Summit. This year's two-day summit is being held Thursday, February 29th and Friday, March 1st, 2024 at the Beach House Hotel in beautiful Hilton Head Island SC.

Empowering local government GIS and IT technology leaders to enhance the growth and development of a diverse geospatial community within SC is our purpose. A major part of that is the network of supporting "can-do" peers, the sharing knowledge, and gathering of ideas from others. It is time to show up and grow together in our skills.

As President for the 2023-2024 year, myself & the GAASC board are excited to have our two-day summit of networking opportunities along with targeted GIS, IT and Leadership speakers for a diverse and well-rounded agenda.

Our Spring agenda will include presentations from members showing projects, challenges, and success stories. Some vendor presentations of work they are doing with our members will be presented. We then begin Friday morning with a management session on Leadership being more than a title.

GAASC also offers professional development opportunities for growth with leadership roles as an officer, serving on the board of directors and through projects initiated by the group.

I look forward to seeing all at this year's Spring 2024 Summit as we foster leadership, build GIS and IT skills and facilitate collaboration within South Carolina's local government IT and GIS community.

Frank Bishop, Aiken County IT Director  
GAASC President, 2023-2024

# GAASC 2024 Spring Summit – Beach House; Hilton Head, SC
